New Program! Adventure Education Post-Degree Diploma

Camosun's Centre for Sport and Exercise Education is offering a new Post-Degree Diploma in Adventure Education, with our first intake in summer 2017. This unique 13-month program is designed for working professionals who are interested in facilitating experiential learning through adventure-based activities.

Ideal for educators, outdoor activity guides and leaders, counsellors and other human service professionals, the Post-Degree Diploma will prepare professionals to provide safe and meaningful outdoor learning to participants in their own context or setting.

Blended Delivery:

Online learning and two-weeks of face-to-face instruction at both the beginning and end of the program.

Information for educators:

The Adventure Education Post-Degree Diploma will be beneficial for educators looking to implement outdoor experiential learning into their curriculum, to connect students to nature, to keep students engaged in learning and maintaining healthy lifestyles or even to lead students on outdoor trips.

The program focuses on developing program design, implementation and evaluation skills; leadership competencies in land-based and water-based activities; identifying and aligning participant needs and facilitating intentionally designed adventure programs with consideration to physical, social, environmental, emotional and cultural aspects.

This program has been considered by BC Teacher Qualification Service (TQS) as an acceptable Integrated Program that may meet requirements for category upgrading. BC TQS pre-approval is recommended.
